

## **Benefits**

Is your project too short for a permanent hire?  
Is it difficult to find the right, permanent-hire, candidate?  
Can you afford to delay your project while you search for a permanent hire?  
Will your team benefit from temporary access to mature experience?

## **Overview**

Dr. Laine enjoys dynamic reservoir simulation.  
Dr. Laine enjoys making new friends & making team contributions.  
Millions of active cells.  
Billions of barrels in place.  
Decades of production history.  
Hundreds of wells.  
20 years of experience.

### **Reservoir Simulation Software Experience**

Petrel-RE & Eclipse  
CMOST, IMEX, & STARS  
MARS

### **Reservoir Simulation Model Experience**

Black oil    Compositional    Thermal    Gas storage

### **Depositional Environment Experience**

Carbonate reefs                      Karsted Carbonates                      Fractured carbonates  
Channels    Deltaic    Distal    Fluvial    Proximal    Splay    Turbidites    Lacustrine

### **Hardship & Expatriate Locations**

Arctic                      Angola                      Colombia                      Gulf of Mexico  
Kazakhstan    Mexico                      Saudi Arabia                      Venezuela

### **Reservoir Locations**

Alaska    Angola    Argentina    Australia    Brazil    Colombia    Gulf of Mexico  
Iraq    Kazakhstan    Mexico    Nigeria    Russia    Tartarstan    Venezuela

### **Professional Experience**

<b>Laine &amp; Associates, Inc.</b>	2009 – Present
<b>ENI (International Resources Ltd)</b>	2008 - 2009
<b>Laine &amp; Associates, Inc.</b>	1996 - 2008
<b>OGCI Management, Inc.</b>	1995 - 1996
<b>Laine &amp; Associates</b>	1994 - 1995
<b>Texas A&amp;M University</b>	1984 – 1994
PhD, Petroleum Engineering	College Station, TX
<b>Society of Petroleum Engineers</b>
